HELMBOLD'S GENUINE PREPARATIONS.

HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU.

For diseases of the Bladder and Kidneys, Obstructions of the Urine, Chronic Gonorrhoea, Strictures, Gleet, Weaknesses, and all diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of quacks, who start up every day and fill the papers with falsehoods, too well calculated to deceive the young and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, it does not dry up the disease in the blood.

Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a cure and preventive.

HELMBOLD'S HIGHLY CONCENTRATED Compound Fluid Extract of Sarsaparilla.

For Purifying the Blood, removing all diseases arising from excess of Mercury, exposure and impudence in life, chronic constitutional disease, arising from an impure state of the Blood, and the only reliable and effectual remedy known for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetters, Pimples on the Face, and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished Physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our public institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected.

NOTICE.—Letters from responsible Physicians and Professors of several Medical Colleges, and certificates of cures from patients will be found accompanying both Preparations.

Prices, Fluid Extract Buchu, \$1 per bottle, or 6 bottles for \$5.

" " " Sarsaparilla, same prices, equal in strength to 1 gallon Syrup of Sarsaparilla.

Prepared and sold by H. T. HELMBOLD, Chemist, 263 Chestnut-st., near the Girard House, Philad.

To be had of PECK & HAMILTON, Perrysburg, Ohio, and of druggists and dealers everywhere.

All letters directed to the proprietor or agents receive immediate attention. [June 16]

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.

This remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate.

Nothing has called louder for the earnest inquiry of medical men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigation and cure. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the Cherry Pectoral. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any dependence to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent physicians, who make it their business to know,—in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published nor too widely known. The afflicted should know it. A remedy that cures is priceless to them. Parents should know it, their children are priceless to them. All should know it, for health can be priced to no one. Not only should it be circulated here, but everywhere, not only in this country but all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circuit of the globe. The sun never sets on its limits. No continent is without it, and but few peoples. Although not in so general use in other nations as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both Americas—in Europe, Asia, Africa, Australia, and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even more avidity than ourselves. Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its cures.

By pursuing this course I have the hope of doing some good in the world, as well as the satisfaction of believing that much has been done already.

Prepared by Dr. J. C. AYER, practical and analytical chemist, Lowell, Mass.

Sold by PECK & HAMILTON, Perrysburg; ALLEN & NELSON and Dr. H. BURRITT, Maumee City, and all dealers everywhere. [Nov. 17m6]
